

Oversharing & Privacy Quiz

Name: _____

Class: _____

Circle the best answer for each question.

1. Why can a selfie at the bus stop be oversharing?

- ☐ a) Selfies are always risky
- ☐ b) Details like a school logo, street sign and time can reveal your routine
- ☐ c) Bus stops are dangerous
- ☐ d) It uses too much data

2. You send a photo to one friend. Who might end up seeing it?

- ☐ a) Only that friend
- ☐ b) Anyone they screenshot it or forward it to
- ☐ c) Nobody, if the app warns about screenshots
- ☐ d) Only your followers

3. What is the safest way to share a fun day out?

- ☐ a) Go live with a location sticker
- ☐ b) Post after you leave, without live location
- ☐ c) Post your plans the day before
- ☐ d) Share your location with all followers

4. A quiz asks for your first pet's name, birth month and first school. What is the best response?

- ☐ a) Answer, it's just for fun
- ☐ b) Skip it, or make up the answers
- ☐ c) Answer only in a private story
- ☐ d) Send the answers by private message

5. True or false: if your account is private, your posts cannot spread.

- ☐ a) True
- ☐ b) False

Answer key

#	Answer	Why
1	b) Details like a school logo, street sign and time can reveal your routine	One detail may be harmless. Several together can show where you go and when.
2	b) Anyone they screenshot it or forward it to	The number of people you send something to is not the number who may eventually see it.
3	b) Post after you leave, without live location	Posting later is a simple habit that reduces real-time risk.
4	b) Skip it, or make up the answers	These are common answers to password security questions.
5	b) False	Followers can still screenshot and forward. The audience matters as much as the setting.
