- ☐ c) Posting a selfie
- ☐ d) Blocking someone

2. Someone demands \$200 to delete an image. What is the safest move?

- ☐ a) Pay quickly so it ends
- ☐ b) Send more so they calm down
- ☐ c) Don't pay; stop contact, save the threat, tell someone and report
- ☐ d) Argue with them

3. What should you save as evidence?

- ☐ a) The image
- ☐ b) The threat, username, date and time, and the payment demand
- ☐ c) Nothing
- ☐ d) A recording of the video call

4. Jad already paid once and now they want more. What now?

- ☐ a) Keep paying, it's too late
- ☐ b) It's not too late: stop, save, tell and report
- ☐ c) Delete his accounts and say nothing
- ☐ d) Send what they ask

5. True or false: if the image is fake or AI-made, it isn't serious.

- ☐ a) True
- ☐ b) False

Answer key

#	Answer	Why
1	b) Threatening to share a sexual image unless someone pays or sends more	Sextortion is blackmail. It works by creating panic, shame and urgency.
2	c) Don't pay; stop contact, save the threat, tell someone and report	Paying doesn't guarantee they stop. They often ask for more.
3	b) The threat, username, date and time, and the payment demand	Save the threat and details, never the explicit image.
4	b) It's not too late: stop, save, tell and report	Every point is a valid point to exit and get help.
5	b) False	A fake image can still be used to threaten and harm. The same plan applies.
